

YOUR HOME IS WHERE YOU ARE

FORD TRANSIT CUSTOM / NEW VW TRANSPORTER ● VW T6.1 ● RENAULT TRAFIC ● FIAT DUCATO

OVER 10 YEARS OF EXPERIENCE

At Wavecamper, we believe that every journey can become an unforgettable adventure. That is why we design and manufacture premium-quality camper vehicles, combining passion, experience, and meticulous attention to detail. We are travel enthusiasts who have driven tens of thousands of kilometers in campervans – which is why we understand the importance of every detail on the road.

Each of our campers is built on proven, functional solutions and exceptional craftsmanship. Our production meets the highest quality standards, confirmed by numerous certifications, including official authorization from Volkswagen and Renault S.A.S. By choosing Wavecamper, you are choosing a reliable travel companion, created to explore the world without compromise.

ABOVE AVERAGE FUNCTIONALITY

FOR EVERY DAY

Volkswagen T6.1 Wavecamper will be perfect for everyday activities, such as driving child commute to work or a shopping trip (the height with the roof folded is usually less than 200 cm). The Wavecamper provides a comfortable place to stay inside and a number of options (such as a table and additional electrical system) that makes this car a suitable partner for working outside the office.

TRANSPORT

A family outing with grandparents? Or a weekend getaway with friends?

The Volkswagen T6.1 Wavecamper can be adapted to carry 6 people thanks to optional extra seats in a few minutes.

Moving home or buying new furniture?

With a free floor and a loading space of up to 390 cm long, the Volkswagen T6.1 Wavecamper an ideal for transporting large bulky items.

ABOVE AVERAGE FUNCTIONALITY

ON WEEKEND

Going to the mountains or cycling? Or maybe you are a windsurfing fan?

FOR HOLIDAYS

The Volkswagen T6.1 Wavecamper is perfect for a holidays as a full-fledged camper with four sleeping places, lockers, parking heating or additional electrical installation. With such an equipped camper you can go on a safe holidays whenever and wherever you want. No matter where you stay, you will feel comfortable and safe as home in the Wavecamper Volkswagen T6.1. You will find comfortable beds for four people, a comfortable living space, a functional kitchen, parking heating and access to electricity or an optional chemical toilet inside.

Wavecamper Ford Transit Custom / Neuer VW Transporter - The New Generation of Travel

SHORT = 5.184 mm length / 2.040 mm height LONG = 5.584 mm length / 2.040 mm height

With over 10 years of experience and nearly 1,000 campervans produced, we have developed the Wavecamper conversion for the latest Ford Transit Custom models and its twin, the new Volkswagen Transporter. Building on the solutions from the VW T6.1 model, we have preserved what our brand is known for – highest quality and functionality – while integrating the most advanced solutions available in the industry.

On board, you will find, among others: next-generation lithium-ion batteries, roof-fitted solar panels with enhanced efficiency, 60W USB-C ports for charging laptops and powering STARLINK internet, an intelligent system for managing camper devices via smartphone, and a hot water boiler powered either by air from the parking heater or electricity (12V/230V).

The offer is complemented by a wide selection of accessories dedicated to this model. Versions are available with 150 HP or 170 HP engines, automatic transmission, and the option of 4x4 drive.

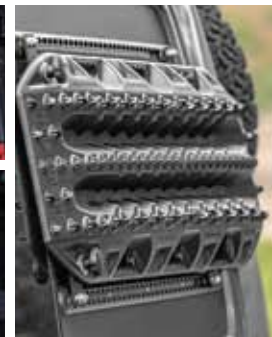

Wavecamper® 4x4 – Your Adventure Without Limits

Specifically designed for off-road enthusiasts and those who love to explore beyond paved roads. Our 4x4 model is a reliable travel companion in the most demanding conditions.

Equipped with numerous underbody shields, off-road suspension—including pneumatic suspension—and durable off-road tires, it provides excellent grip and protection on every expedition. Additionally, a wide range of off-road accessories allows for customization to suit individual needs.

The Wavecamper 4x4 guarantees comfort and safety wherever the road—or lack thereof—may lead you.

Wavecamper Renault Trafic – Quality Certified by Renault S.A.S.

SHORT = 5.080 mm length / 1.990 mm height LONG = 5.480 mm length / 1.990 mm height

The entire Wavecamper DNA has also been applied to the popular Renault Trafic chassis, creating a vehicle with exceptional functionality and flexible interior design. The key feature is the individual seats mounted on a rail system, allowing for various configurations – from a 4-person camper with 4 sleeping places to a comfortable transporter for 6 people. After removing the seats or bed, a space ideal for transporting larger items is created.

The offer includes two conversion models: **Flex** – the traditional, proven Wavecamper model, **Entry Plus** – a new model featuring sliding doors on both sides of the vehicle and convenient access to the kitchen from outside. The Entry Plus model stands out with innovative seats that, in addition to the sleeping function, offer exceptional comfort for relaxation.

The Wavecamper Renault Trafic is the ideal solution for those who expect the highest quality, functionality, and versatility.

Camper Flex

Entry Plus

Unique Wavecamper Conversion with Separate Driver's Cabin – Modern Use of Space and Functionality

Our unique Wavecamper conversion features a clear separation between the driver's cabin and the living area. This design places the kitchen and bathroom along the partition wall, allowing for a completely new and practical use of space. Additional benefits include excellent thermal insulation from the driver's cabin and the discreet appearance of the camper, which looks like a standard delivery vehicle from the outside—especially when combined with the optional INCOGNITO package. This vehicle is also ideal for use as a mobile office or other commercial applications.

Version 540

Based on the shortest model, ideal for 2 people who value easy access and parking even in the busiest city environments. A large bathroom with shower, practical kitchen, comfortable bed, and spacious storage make it a compact, year-round camper or a functional utility vehicle.

Version 600

The 600 cm long model is a compromise between the shortest and longest versions, designed for 3 people. It offers a larger living area, comfortable beds, and a bigger storage compartment compared to the 540 version. Additionally, it allows transporting two bicycles in the storage area while still leaving ample space for luggage.

Version 640

The longest version provides even more living space and comfortable longitudinally arranged beds, enhancing user comfort. Like the 600 version, it permits carrying two bicycles in the storage area while maintaining generous luggage space.
